

COPPER DRAINS

COPPER ECONOMY DRAINS

PRODUCT INFORMATION

SKU: P-EC13010
P-EC13011

FEATURES:

- 0.75mm thickness for the drain deck
- 1.2mm thickness for the drain stem
- 12" stem welded securely to the drain deck
- Features a 14" wide copper flange
- Complete with a TPO drain dome and 2 screws for easy installation
- Copper drainage collar spot-welded to the deck for durability
- Ideal for temporary connections in various drainage applications

APPLICATION:

Economy drains are designed for cost-effective drainage solutions in roofing applications. They facilitate the efficient removal of water from roofs, preventing pooling and potential water damage. Typically used in commercial or low-budget projects, economy drains are lightweight and easy to install, making them suitable for both new constructions and retrofitting existing systems. Their affordability does not compromise performance, as they still meet necessary drainage requirements, helping to maintain the longevity and integrity of the roofing system.
