STEP BY STEP QR REGISTRATION GUIDELINE ON-SITE BY ROOFER

STEP 1: QR CODE SCANNING

- Launch your device's camera app or QR code scanner app and begin by pointing your mobile phone's camera at the drain QR code and tapping the yellow button that appears on the screen

On most Android phones, the button text will be the website URL that the user will go to. On iPhones, the button text will read "Open in [Default Web Browser Name]" (i.e. "Safari" or "Chrome" or "Brave" like seen in this instance)

- Once you tap on the button, the device will take you to the QR code website to either register a new drain or provide a new work entry for the drain if it was previously registered

STEP 2: LOCATION PERMISSION

- Your mobile device will notify you that your GPS location is needed to help identify the location of the drain
- It is essential to tap "Allow" in this case to ensure that the Latitude and Longitude of the location are recorded. This will prevent roofers from needing to re-register the same location on future visits

STEP BY STEP QR REGISTRATION GUIDELINE ON-SITE BY ROOFER

STEP 3: DRAIN LOCATION REGISTRATION PROCESS

- After you grant access to GPS details on your device, you'll be able to complete the Installation Details form, as shown in FIG.1. A filled-out version of this form is provided in FIG.2 below. Once you completed the registration, you'll see confirmation page along all the data you filled out in the form (FIG.3)
- You can enter the details as accurately as possible while at the job site. If needed, any missing information can be updated later in the administrative section of the website by authorized personnel
- Once you've completed the form, click "Register" to finish

STEP 4: WARRANTY & MAINTENANCE

When filling out the Warranty Details and Maintenance Reminder sections, if a warranty or reminder is required, additional links appear that allow the roofer to preview the communications that are sent out.

The screenshot shows an email template for a 'Warranty Reminder'. It features the Platinum Roofing Products logo in the top left corner. The main heading is 'Warranty Reminder', followed by the address '123 Example Address, Mississauga, ON Canada'. The body text states: 'This is a reminder that the 5 year roof warranty for this property will expire in 4 years on Apr 30, 2029. Click [here](#) to see property details.' At the bottom right, there is a copyright notice: '© 2025. Platinum All rights reserved.' At the bottom center, there is a link: 'No longer wish to receive these emails? [Unsubscribe](#)'.

The screenshot shows an email template for a 'Maintenance Reminder'. It features the Platinum Roofing Products logo in the top left corner. The main heading is 'Maintenance Reminder', followed by the address '123 Example Address, Mississauga, ON Canada'. 6. CLOSE PROXIMITY

In some cases, if a property location is geographically close to another registered location on the website, the interface will include another control that resembles the following. This allows the roofer to choose the appropriate address of the property should the roofs be in close proximity.
